

# Why support the **Employee Giving Campaign?**

**iCare  
iGive**

The campaign offers an opportunity for employees to give back to their local health ministry while supporting areas of greatest need, the Employee Relief Fund or other vital programs and services that assist in our ability to provide exceptional care.

Giving stays local and funds help support:

Patient impact programs and health care services

Education, training, and assistance for our employees

Advancements in new technology and medical equipment

Donations received through the Employee Giving Campaign help support our SSM Health hospitals, health care workers, and the patients we serve.

## The impact of the **Employee Relief Fund**

Below are real employee testimonials who were helped because of your generous donations to the Employee Relief Fund.

“The Employee Relief Fund helped me when I had a health emergency and was unable to work for several months. It helped me keep my home, so I have tried to pay it forward as often as possible!”

“You’ll never know how much this gift has meant for my family. It provided us with groceries, etc., when I wasn’t sure where I would get our next meal. It’s been a rough road, but I know that God is always watching over us, and when he puts people like those who helped provide this financial support in the world, my faith is even stronger.”

“I want to express my heartfelt gratitude for the support and compassion I received during a challenging time. The emergency financial relief I was provided after the loss of my father meant more to me than words can convey. It truly made a difference in my life, and I am profoundly grateful for the help.”
